Supporting children & young people

with consistent and effective support for their wellbeing wherever they live or learn.

getting it right for every child

The Wellbeing Wheel

- Wellbeing sits at the heart of the GIRFEC approach and reflects the need to tailor the support and help that children, young people and their parents are offered to support their wellbeing.
- A child or young person's wellbeing is influenced by everything around them and the different experiences and needs they have at different times in their lives.
- Each child is unique and there is no set level of wellbeing that children should achieve. Each child should be helped to reach their full potential as an individual.
