

## iPhoto – resizing images

1. Open iPhoto and select the image you wish to resize.  
Notice it now has a coloured border showing it has been selected.

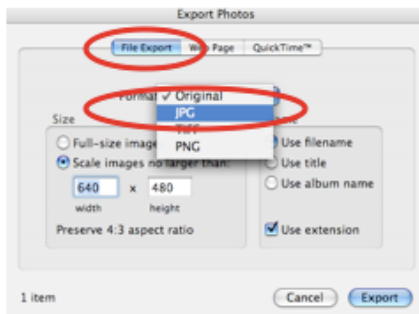

shoes - 050

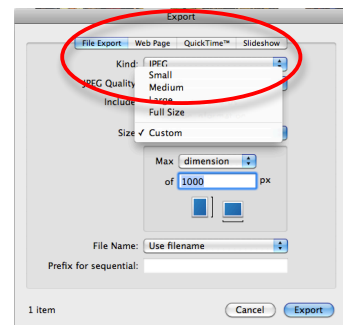

2. Go to **File** and select **Export** from the Drop-down menu.

3. Make sure the **File Export** button has been selected and choose **JPG** from the **Format** Drop-down menu.

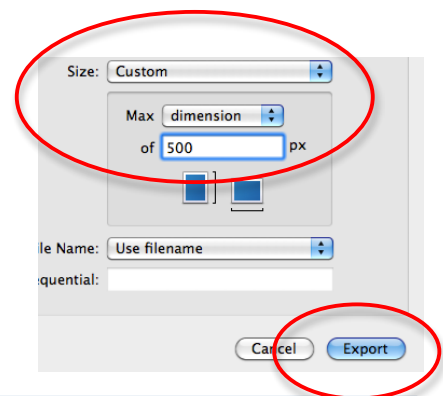

or

4. Make sure the 'Scale images no larger than' Button is selected or 'custom' size button.

5. Change the number in the box to **500**.  
(Width in early versions of iPhoto) These numbers are pixels.

6. Click **Export**.

7. Give your photo a name and decide where you want it to be saved to (ie desktop) and click **OK**.
