

SCHOLAR

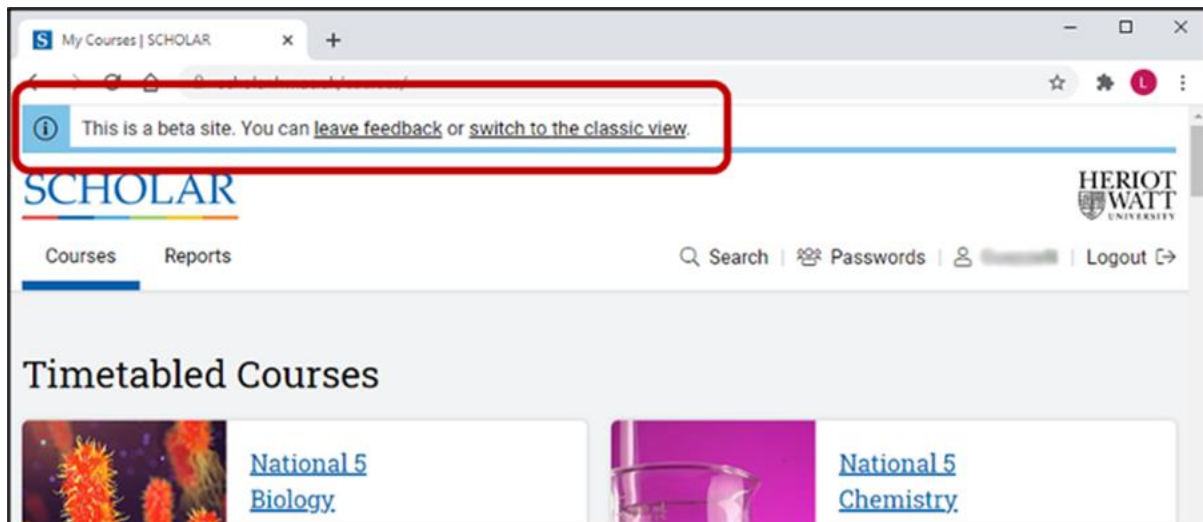

Choice of SCHOLAR Platform

SCHOLAR has been working on a brand new platform with a host of improvements, particularly for those currently using mobile devices to access online learning. Teachers and learners are now able to switch at will between this new, more mobile-friendly beta site and our "Classic" SCHOLAR platform. Both platforms provide access to our full suite of [online course materials](#) packed with activities for learners to work on including: video clips, listening tasks, animations, simulations, drag-and-drop exercises, matching and ordering tasks, practice exam questions etc.

To access the new platform, when logged in to SCHOLAR, users can click on the [try the new beta site](#) link at the top of the web page.

Users free to switch back to the classic platform at any time using a link in the notification bar at the top of the page.

New video- Information for Parents and Carers

Many parents and carers are curious about online learning, and would like to find out more about resources that can be used to enliven at-home learning.

To give parents and carers a sense of the variety of engaging activities available, SCHOLAR have produced a new 3 minute video, "[Information for Parents and Carers](#)", aimed, primarily, at parents and carers of learners in S3-S6.

Our new video is available at <https://bit.ly/ParentsAndCarersInfo>
