

Grid 1

Home learning while absent from school

I have put together a grid of ideas for you. These can be completed at home while you can't come to school. You can choose your own ideas too. Have fun!

Think of our class book Funnybones. Can you write a book review and design a new front cover?	Follow a recipe. Bake a cake or help prepare a meal for your family. Make sure there is an adult who can help you.	Can you make a pattern using 2d shapes? Can you name all the shapes?	Mindfulness Put on some relaxing music or nature sounds and complete some mindfulness colouring or create your own.	Find different packets of food. Which one is the heaviest? Compare the weights using heavier, lighter, less, more.
Build a den using things you can find in your house. You may want to draw a plan first!	Make a quiz of all the facts you know about human bones. Try it out on someone at home.	Create a repeating pattern using objects in your house. You can make it simple or complex!	Build a tin foil boat How many objects can you fit in your boat before it sinks?	Choose a number within 100. What could the question be? 12 10+2, half of 24, 20-8
Create a poster of a country you have visited or a country you would like to visit. What facts can you find?	Make a bird feeder and watch to see which birds visit your garden. Do you know the names of these birds?	Cut a piece of string of any length. Can you find things that are taller/shorter than your string? Did you guess correctly?	Story Can you write one based on a skeleton.	Autumn soup Get a bowl of water and add some Autumn nature finds. Could you write a list of ingredients?
