

## Primary 4 Home Learning Grid Term 1

Follow the instructions (found on the next 2 pages) from artist Darrell Wakelam to create a cardboard Iron Man sculpture.	Follow a recipe to create something eg. a <a href="#">cake</a> or a batch of <a href="#">salt dough</a>	Plan a trip to Edinburgh using public transport. What fun activities could you do when you get there? Check train times and costs online.	Stay fit and healthy and complete a PE session with <a href="#">Joe Wicks</a> every day or try some <a href="#">Cosmic Yoga</a> .
Read a book and create a book review to share with your class. You could write, type or make a video review.	Download this <a href="#">map of the World</a> from National Geographic and colour the different countries and flags.	Write a story about this dragon 	How many words can you make out of the letters in this sentence? <b>Learning from home is fun</b> Write a list.
Write a letter to the Iron Man from Hogarth to apologise for trapping him in the pit and thank him for saving the World.	Design and make an obstacle course at home or in the garden. How fast can you complete it?	Create your own secret code. You could use letter, numbers, symbols or something else. Ask someone to try and crack it	Download some addition and subtraction <a href="#">worksheets</a> .

# Recycled Robot

1 - Cut the lid from an egg box for a body.

2 - Cut it into sections, arrange them how you want and tape just over half way up on the base, leaving room for the legs.

3 - From the rest of the egg box cut pieces to make a neck, head and a 'brow'. . . then attach these on. \* Remember, it doesn't have to look like mine.

4 - Cut some cardboard tubes in half lengthways and make some arms . . .

5 - Use another piece of tube to make 'palms' and attach some fingers to these made from some rolled up foil.

6 - Use more tubes to make some legs and feet. Then use any spare bits of tube to stick on top to make the robot look more like a machine . . . like this.

7 - Use some of the leftover egg box pieces to create details. You can also cut thin pieces of card for wires.

8 - Use a 'hole punch' to make screws and bolts, and eyes?

\* I've used buttons.

9 - To use up the last scraps I've built a shallow 'shelf' as the floor and used up the tube and egg box pieces as 'junk'.
