

Share your views on suicide prevention in Scotland

We would like to invite you to attend one of five events, to share your views on suicide prevention in Scotland.

We want to hear from those affected by suicide and those who directly engage with those affected to understand what could be done better or differently to reduce suicide and the impact it has on people, families and communities in Scotland.

The events will influence the development of the Scottish Government's next Suicide Prevention Action Plan, due to be published in spring 2018.
