

Internet Safety, Media Permission & Acceptable Use of ICT

At Grange Primary School we want to give our children/young people as rich a variety of learning opportunities as possible, including access to Information and Communications Technologies (ICT) and the wealth of information on the internet that can enrich classwork. Internet use at Grange includes use of Glow, Scotland's safe and secure intranet for schools, and other Council-approved resources.

The ability to use it efficiently and responsibly is a skill that will be of value throughout a learner's life. It also allows a school to celebrate our learners' work by publishing it on a school website, blog, twitter and Facebook site. The internet can harbour dangers and must be used responsibly to keep both our youngsters and the network itself safe.

You can find out more about providing your child with safer internet access at home at <https://www.thinkuknow.co.uk/parents/>

You can find out more about ICT in Education at <http://www.educationscotland.gov.uk/usingglowandict/>.

The rules below apply to all uses of the internet and to all information sent electronically, including text messages and pictures sent by mobile phones. The ICT equipment in school or home learning devices (computers and any other internet devices, including personal devices and mobile phones), are there to help with classwork and homework. Used responsibly, exciting and interesting ways of locating and using resources can be found to aid learning.

I have read the rules for Acceptable Computer and Internet Use and understand that these rules apply when my child is using ICT (including both school and personal computers and devices) and the internet.

I have gone through the rules with my child and explained their importance and the consequences of breaking the rules, and ensured that she/he understands.

I understand that the school will make every reasonable effort to filter out access to controversial material on the Internet, but I will not hold them responsible for materials my son or daughter acquires or sees as a result of the use of ICT at school.

I also accept that the school cannot be responsible for any loss, theft or damage to personal equipment my child may bring to school e.g. smartphone, iPod, netbook etc.

I understand that in order to provide my child with a Glow Account some information will be transferred from school to Glow.

I give my permission to allow the child/young person named above to use ICT and the internet in school. *(This can be changed at any time by contacting the Head Teacher.)*

This school may produce or participate in work for web pages, ICT presentations, digital or online presentations, educational articles for magazines as well as its own twitter feed or other social media. The press may also publicise or promote learning opportunities via articles, film or pictures. These materials are often used to show good practice and to celebrate a school's achievements. Materials are also made available to other members of the Glow intranet community in Angus Council or nationally to other Scottish schools and their Glow guests.

We need permission from parents and carers to be able to publish the child's work or record activities by camera or video camera. This permission will also cover your child's participation in online-conferences normally run within Glow. Sometimes these are recorded and made available for viewing within Glow. Please be assured that the child's safety will always be of paramount importance and no personal information will be made public.

Please sign below if you are happy for your child to be included in these activities. *(This permission can be changed at any time by contacting the Head Teacher.)*
