## What is Seesaw?

Seesaw is a multimedia journal that empowers pupils to showcase what they are learning in school.

Throughout the school year, Seesaw builds an organised, digital portfolio of each pupil's learning, accessible by teachers, pupils & parents/carers.

Seesaw keeps parents/carers up-to-date, giving them a personalized glimpse into their child's school day.

## How does Seesaw work?

1. Teachers create a class. Every pupil has their own journal.
2. Pupils & Teachers add artefacts of learning, eg, photos, videos, or drawings. Annotations and explanations of learning are added.
3. Approved items are shared securely with parents via the app.
4. Over time, a personalised digital portfolio builds up including parent/carer feedback on each pupil's learning.
