

ICT Acceptable Use in school

Nursery

When using the internet or ICT, I will...

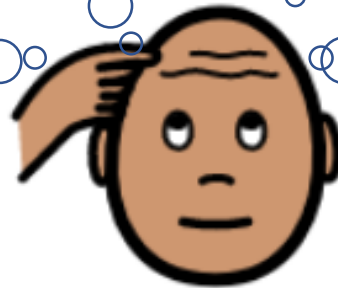

2. Be respectful

3. Be safe

1. Be secure

4. Be responsible

Early Years

All ICT equipment in school (like Computers, iPads and any other devices), is there to help us, to make learning fun.

1. Be secure:

- I will ask an adult to log out for me, if I have used a game with an account
- I will not tell others about passwords on school devices

2. Be respectful:

- When using technology, I will always be kind, polite and share the equipment nicely
- I will wait patiently to get my turn
- I will listen to other people's ideas during ICT activities and be kind to them.
- I will never photograph or record teachers or other pupils without asking them if it is OK.

3. Be safe:

- I will always stay on the game or site that the adult has asked me to look at.
- If I am using the internet, I will always stay next to an adult, who will help to keep me safe.
- I will ask for help if something worries me or if I get stuck.
- If I see or hear something that is wrong, I will tell an adult

4. Be responsible:

- I will take good care of the ICT equipment I use, being careful to have clean dry hands and not leave equipment on the floor.
- I will follow instructions carefully
- I will be a good role model by helping others to follow the rules.
- I understand that if I don't follow these rules, I might not be allowed to use the equipment in school.
