

Fun with guttering

Equipment

- Boxes
- Chairs
- Pieces of guttering

Instructions

Set up a sloping surface outside using boxes, chairs and pieces of guttering.

Get the children to pour water into the top of the guttering and watch it run all the way to the bottom.

Put a tray or bowl at the end of the guttering to catch the water and use it again.

Variations

Put balls, boats or similar items down and watch what happens.

Experiment with different volumes of water and adjust guttering to different heights.

Add bubbles and/or food colouring to water.

Use water in tray to 'paint' fences, walls and paths using sponges or paintbrushes.

benefits

- Physical – developing hand skills and coordination
- Other – discovering concept of height, shape and size. Learning to observe and interact with others.
