Your Board
Welcome to Spelling Battleships! First choose at least 6 words to play with (more than 3 letters long). Place them horizontally and vertically on your game board, your words will be your ships. One at a time ask your opponent a coordinate (C4) if it is a hit they will tell you the letter and you can mark it on your other grid. If you can sink the word it's one point (+1)
An extra point can be given when you can successfully guess and spell one of your opponents ships that you haven't fully sunk but has up to 4 letters found, anymore it wont count. Most points win... Good Luck and Enjoy!
