### **Internet Safety**

Dear Parent /Carer

As you will be aware last Tuesday was Internet Safety Day. A lot of work took place in school to make our young people more aware of the potential dangers that they could be exposed to when online.

There has also been a significant increase of concerns being reported to the school over the last few years about online bullying and abuse particularly through inappropriate use of social networks

We will continue to promote the positive use of the internet and how young people can keep safe when online. Below are some links to websites you may be interested in if you would like to find out more about staying safe online and tips and ideas on how to discuss this with your child.

The internet is a wonderful resource when used responsibly and appropriately, and can be an excellent educational learning tool

Yours sincerely  
G Munro  
Head Teacher
