Writing

Watch the video. Say the sentence to remember it then write it on some paper.

The dog is on the bed.

## Counting

Practise your counting skills.

Walk around the room, with each step count up, can you get to 30 or higher?

Remember you can challenge yourself and go higher than 30.

### Mental Maths

Find the answer to the addition sums using toys, fingers or in your head.

Talk it about your answers with an adult.

$$1 + 5 =$$
 $8 + 2 =$ 
 $10 + 4 =$ 
 $3 + 8 =$ 

If these were easy ask somebody to give you sums within 20 to solve.

# Sorting

Grouping toys/objects

We have looked at how we can group different items, this could be by size, shape, colour and many others.

Using your toys and objects from your house, create groups that they can sorted into.

You might sort them into soft and hard groups.
You could sort them by the colour they are.
Think of as many different ways as you can to group and sort your toys.
Take some pictures of your groups.

Watch the video for some examples of sorting objects into groups.

# Health and Wellbeing

It is important to think about how we feel and talk about this with somebody. Draw a picture to show how you are feeling today, then talk to somebody about your picture and how you are feeling.

#### Other

Time to make some music! Music involves beats and rhythms and you do not need an instrument to do this, you can use your body. Think about the sounds you can make using parts of your body and then join in with the Lion King Body Percussion video.
