

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

Questions:

- Which month has the most birthdays?

- Which month has the fewest birthdays?

- How many birthdays are there in June?

- How many months have 3 birthdays?

- Which month has the second most birthdays?

- How many more birthdays are there in February than in January?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

Questions:

- Which month has the most birthdays?

- Which month has the fewest birthdays?

- How many birthdays are there in June?

- How many months have 7 birthdays?

- Which month has the second most birthdays?

- How many more birthdays are there in September than in August?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	
March	I
April	
May	
June	
July	
August	
September	III
October	
November	I
December	III

Questions:

- Which month has the most birthdays?

- Which month has the fewest birthdays?

- How many birthdays are there in September?

- How many months have 4 birthdays?

- Which month has the second most birthdays?

- How many more birthdays are there in December than in November?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	
March	I
April	
May	II
June	
July	I
August	
September	
October	
November	I
December	

Questions:

- Which month has the most birthdays?

- Which month has the fewest birthdays?

- How many birthdays are there in October?

- How many months have 1 birthday?

- Which month has the second most birthdays?

- How many more birthdays are there in October than in September?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

Questions:

- Which month has the third most birthdays?

- Which month has the most birthdays?

- How many people have birthdays between January and May?

- How many people have birthdays between August and December?

- Which month has the fewest birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	I
March	
April	I
May	
June	
July	
August	
September	
October	
November	
December	

Questions:

- Which month has the second most birthdays?

- Which month has the most birthdays?

- How many people have birthdays between March and November?

- How many people have birthdays between January and July?

- Which month has the fewest birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	II
February	IIII
March	IIII
April	I
May	IIII
June	
July	III
August	III
September	IIII II
October	III
November	I
December	IIII II I

Questions:

- Which month has the third most birthdays?

- Which month has the most birthdays?

- How many people have birthdays between January and May?

- How many people have birthdays between August and December?

- Which month has the fewest birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	II
February	I
March	IIII
April	
May	IIII
June	IIII III
July	II
August	IIII
September	III
October	IIII
November	I
December	IIII

Questions:

- Which month has the second most birthdays?

- Which month has the most birthdays?

- How many people have birthdays between March and November?

- How many people have birthdays between January and July?

- Which month has the fewest birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	II
February	III II
March	IIII
April	II
May	III IIII
June	III
July	IIII
August	I
September	III II
October	III
November	II
December	III I

Questions:

- How many people were asked about their birthday?

- Which month has the most birthdays?

- What is the difference between the most and the least birthdays?

- How many people have birthdays between March and November?

- What is the most common frequency of birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	III IIII
February	III
March	IIII
April	
May	IIII
June	IIII
July	
August	II
September	III III
October	III
November	II
December	III

Questions:

- How many people were asked about their birthday?

- Which month has the most birthdays?

- What is the difference between the most and the least birthdays?

- How many people have birthdays between January and September?

- What is the most common frequency of birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	
February	II
March	IIII I
April	I
May	III
June	
July	III
August	IIII
September	IIII II
October	IIII
November	I
December	IIII IIII III

Questions:

- How many people were asked about their birthday?

- Which month has the most birthdays?

- What is the difference between the most and the least birthdays?

- How many people have birthdays between March and November?

- What is the most common frequency of birthdays?

Using the tally chart recording people's birthdays' below, create a bar line chart from it:

Month	Tally
January	IIII II
February	I
March	IIII
April	IIII IIII
May	IIII I
June	IIII IIII
July	I
August	IIII
September	IIII
October	IIII
November	I
December	IIII

Questions:

- How many people were asked about their birthday?

- Which month has the most birthdays?

- What is the difference between the most and the least birthdays?

- How many people have birthdays between January and September?

- What is the most common frequency of birthdays?
