

Cereal Box Puppet Theatre

You will need:

- Cereal box
- Coloured card or fabric (optional)
- Wrapping paper
- Lolly sticks
- White glue (such as PVA)
- Glue spreader or brush
- Scissors
- Plain paper or stick puppet templates
- Felt-tip pens

What To Do:

Cut a rectangle in the front of your cereal box, near the top. This will be your stage.

Cover the box in wrapping paper, leaving the open end uncovered, so you can get your stick puppets inside.

Draw, colour in and cut out characters for your puppet show. You could print out characters if you like.

4 Glue the back of the character puppet to a lolly stick.

You may want to cut out some fabric to make curtains to frame your stage.

Glue them into place.

Your theatre is ready for your puppet show!

Top Tip:

You could even draw your own scenery for the inside of the box behind the characters.
