

The Strange Figure

Outside was foggy. Sarah was at the graveyard looking for her lost wallet. Then the wind felt silent. Sarah's heart thudded with fear but then she saw a hand crawling up a gravestone.

Her heart was nagging with fear but then Sarah saw a figure standing there. She stood in fear. At that moment Sarah ran as fast as she could to get out of there.

Walking down the high street Sarah thought how she got into this situation because hours before she was at the mall shopping when she realised she forgot her wallet. At that moment Sarah finally reached her house she sat in bed and thought "Who was that or what was it could it still be out there?"
