

## Data Handling

**Task: Using the information you have gathered from your Living Things diary, create a graph or a table displaying your findings.**

You can find some information about Data Handling and different ways of displaying information here:

<https://www.bbc.co.uk/bitesize/clips/z4nyr82>

Don't worry if you haven't collected your Living Things data yet. You could start your graph and add your findings later.

If you need help identifying any of the animals, you can find some spotter guides here:

[www.wildlifewatch.org.uk/spotting-sheets](http://www.wildlifewatch.org.uk/spotting-sheets)

P4 and P5 may recognise some of these from our Birds topic last year!

I would love to see some of your graphs or tables on the Blog!

Happy nature spotting!
