

Big Thursday Tasks

Week beginning 27.04.20

Music

Continuing with the drumming rhythm work, this week you could either have another go at last week's rhythm if you want more time to master it, or have a look at the new PowerPoint I've uploaded on the Home Learning pages.

The new rhythm this week, some of you may recognise – we have tried it before, but not for a few years.

It works really well in time to Red Hot Chilli Piper's version of Wake Me Up, which you can download or find on Youtube. Send the office any videos of your drumming!

Art around the world

Today we are travelling to Mexico to learn about the artist **Leonora Carrington**.

She was a surrealist artist who created paintings and drawings based on her dreams, memories and imagination. You can learn more about surrealism here: <https://www.tate.org.uk/kids/explore/what-is/surrealism>

Task: Create your own surrealist artwork.

Option 1: <https://www.tate.org.uk/kids/make/paint-draw/draw-surreal-creature>

Option 2: Use the above web pages to learn more about surrealism then create your own unique surrealist art based on your dreams, memories and imagination!

I look forward to seeing all your weird and wonderful creations!

Outdoor learning/ STEM- Bug Hotels-Part 2!

Following on from last week's outdoor learning/STEM task, this week I would like you to use your plans to actually create your bug hotel. Remember you can use these websites for a bit of inspiration if you still haven't fully planned out your design.

<https://www.rspb.org.uk/get-involved/activities/give-nature-a-home-in-your-garden/garden-activities/build-a-bug-hotel/>

<https://www.wildlifetrusts.org/actions/how-build-bug-mansion>

If you have already made your bug hotel, have you noticed any bugs/insects in it? Can you write down a list of which creatures you have seen checking in? Also are there any improvements you could make to your hotel? Maybe you want to move it to a different location to see if that attracts different wildlife, or maybe you want to add different sections on to it.

Please remember to take photos of your hotel for the blog- we would love to see your work!

Computer Science

Keep working on that coding- head to <https://code.org/hourofcode/overview> and complete a different coding challenge this week.

Remember to watch the help videos throughout so you know what you should be doing AND keep trying, it does become easier the more you work at it!

Print your completion certificate and share your coding experience with us on the blog! Let us know which type of coding you did this week whether it was Star Wars or Frozen.

Most importantly have fun with it!
