Draw pictures (use your white board) to solve these problems. Helpful tips (and a laugh at Miss Dale's drawings) on page 2.

Owen had 6 sweets and Brody had 7 sweets. How many sweets altogether?
Grace had 12 cakes. She gave 3 to Miller. How many cakes does Grace have left?
Olly had 4 cats. He gave each cat 3 fish to eat. How many fish altogether?

5 monkeys. 20 bananas. How many bananas does each monkey get?
15 rabbits (get drawing and stop whinging!). 30 carrots. How many carrots does each rabbit get?
Along comes the bus with 10 people on board. 4 get off. 8 get on. How many people on the bus now?
Making up your own? Just keep your numbers between 0-30.

## Time:

## Make your own clock :

I used old notebook covers (recycling!!)
Make sure you have a long minute hand and a short hour hand.
I used a bowl to draw around for the clock face.
I used a pencil to hold my hands on my face.

## Practise drawing clock faces on your white board:

It is important to make sure the numbers are in the correct place on the clock face.
Now parents set the clock and child reads it : 6 o'clock 3 o'clock 12 o'clock
Now parents tell and pupils set the clock: 7 o'clock 1 o'clock etc.
Move onto Half past when you are ready.
Little and often-use your clock everyday for 5 minutes.

## Maths Homework Options and Sumdog

A little everyday to help mental maths skills and stop you getting a rusty brain!!

## Patterns

Draw and colour the next 2 in the pattern.

## Big Take Away Challenge

Over on page 3:
Try out one column of take away questions everyday this week.

Let us know how you get on.

Drawing pictures to solve word problems.

1
5 bears. 15 fish.
How many fish does
each bear get?
(i) (i)

Along comes a bus with 3 people on bard...

1

Along comes a bus with 3 people on bard...

6 people get on.
