

Time...

Keep using your clock—o'clock, half past, quarter past, quarter to

Parent set the time - pupil read the time

Parent say the time—pupil set the clock

Then make a larger circle from card (I used two old jotter covers).

The larger circle is for putting your 5 minute intervals on 5,10, 15 etc.

Now see if you can set your clock to:

5 minutes past 10

20 minutes past 9

35 minutes past 1

55 minutes past 3

15 minutes past 2

40 minutes past 5

Be careful, don't jump onto **minutes to** unless you are sure **minutes past** is solid.
Time gets very confusing very quickly!!

Big Maths Challenge:

Try and complete one column of questions each day this week.

Read the signs - + carefully!!

Hollywood Maths Homework:

Keep using the Homework

Options: great for skills practice. Great for mental maths—a little everyday = no rusty brain!!

Repeated Addition

$$2+2+2= \quad 2 \times 3 = \quad 3 \times 2 =$$

$$10+ 10 + 10= \quad 3 \times 10= \quad 10 \times 3=$$

$$2+2+2+2+2= \quad 5 \times 2 = \quad 2 \times 5 =$$

$$5+5+5= \quad 3 \times 5 = \quad 5 \times 3 =$$

Now find the answer and write the multiplication questions...

$$10 + 10 +10 +10 +10=$$

$$2+2+2+2+2+2+2+2 =$$

$$10+ 10=$$

$$5+5+5+5+5+5=$$

$$10+10+10+10+10+10+10=$$

Target Board 2 - counting in 5s

5	55	35	20
25	50	10	0
40	15	45	30

Choose a different target task each day this week:

1. Put all the numbers on order. Start with the smallest.
2. Rewrite each row putting the numbers in order from the smallest (then from the largest to smallest)
3. Add 10 to each number.
4. Double each number. (Remember if you know double 2, you know double 20 and double 200 - look for a pattern)
5. Write down all the odd numbers (Can't share equally between 2 people - they end in a 5)
6. Write down all the even numbers (Can share equally between 2 people—end in a zero)
7. Add one to each number.
8. Take one away from each number.
9. Take 10 away from each number
10. Make up your own target task today.

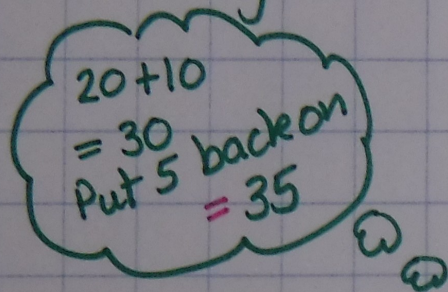

Please use my target board tips over the page...

Target Board tips...

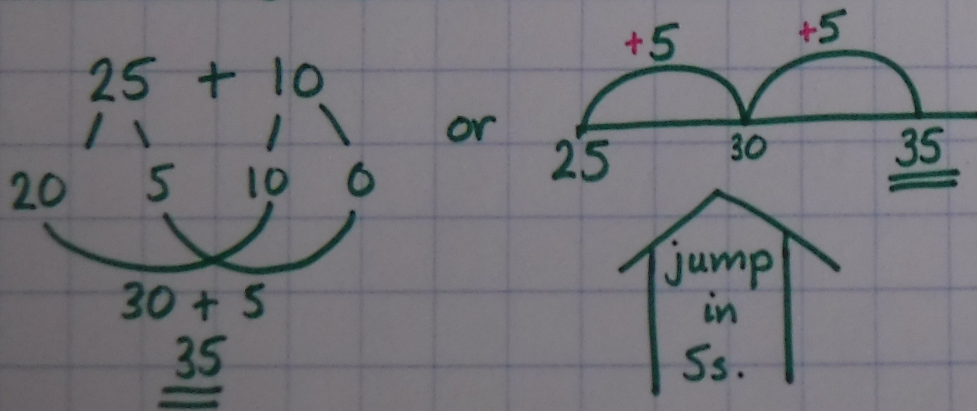

Add 10 to each number

25

Do it in your head

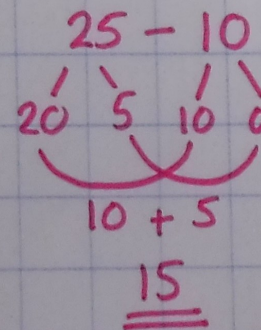

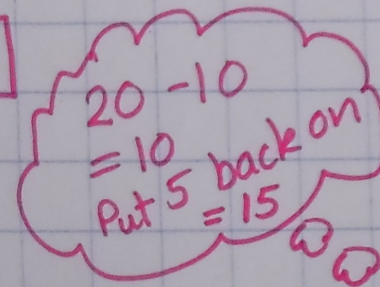

Need more structure...

Take 10 away

25

Double each number

25

double 20 = 40
double 5 = 10
add together = 50
