

## Diagraph Cards

Use these cards below to help your child practise writing words with their diagraphs (2-letter sounds.)

You can print the cards out, or just use them onscreen.

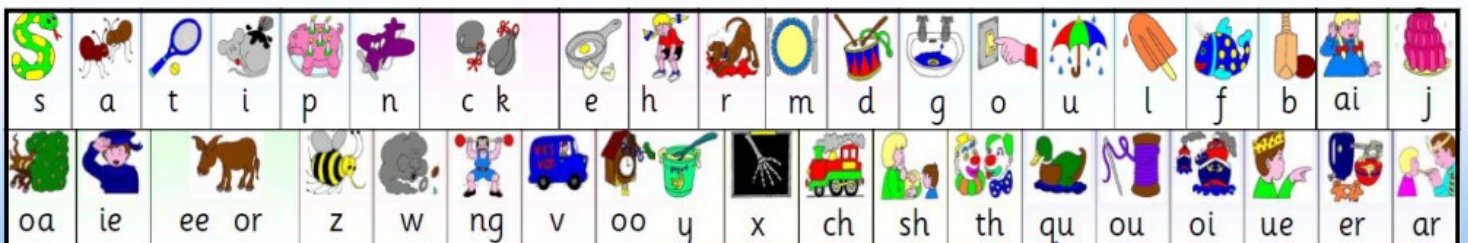

Different ways to use them:

-choose 5/6 cards at random, talk about them with your child, sound them out, write them on their whiteboard

-choose 3 sounds a day to focus on (cards with the same colour border contain the same sound)

-find fun ways to write the words. On a blackboard? Outside using chalk? In a tray of sand/flour/glitter? Painting the words?

-challenge your child, how many cards can they do in 1 minute? Can they beat their score tomorrow? (They enjoy this in class)

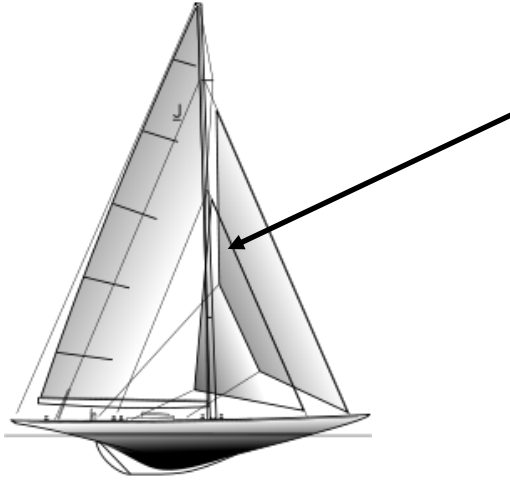

I've posted a larger version of this sound card—your child can use it to help them recall letters and sounds.
