FAMILY OF BEARS FIND YOUNG BURGLAR ASLEEP

A small family of bears who live in the forest returned from a stroll to find their house had been broken in to. They were devastated as they walked through their house to find their porridge eaten, chairs dirty and broken. Not only this, but they were surprised to find the thoughtless burglar asleep in Baby Bears bed! She was woken by the returning bears and fled the house without even saying sorry. One of the biggest shocks to the family was that their burglar who did so much damage is only ten years old.

The family told us they were only out for a short time as they waited for their porridge to cool.

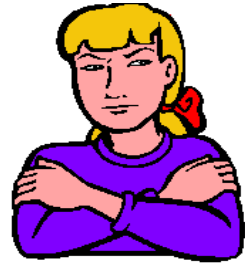

They returned to find the front door falling off its hinges, then inside all their porridge had been tasted and baby bears finished, their chairs had muddy footprints all over and baby bears chair was broken, then they went upstairs and we know what they found there!

upset this has caused their family, particularly Baby Bear who came off worst in the break in.

Goldilocks was found asleep in Baby Bears bed

“The chair that Goldilocks broke was baby bears favourite, we have tried to fix it but is beyond repair,” says Father Bear.

Mother Bear commented, “when we found Goldilocks, we’re not sure who was more shocked, us or her.” It must have been a shock to be woken by three angry bears but that is no excuse for what she did.

We tried to get a comment from Goldilocks (age 10) but we had no luck, her mother did release a statement on behalf of her family,

“We are extremely disappointed in Goldilocks, we can’t understand why she would do such a terrible thing, she is now grounded for two months and hopefully she will never do anything like this again.” We also hope this will never happen again.
