

## Early Level Maths

Week Beginning: 25th January

## Big Take Away Challenge

Over on page 3:

Try out one column of take away questions everyday this week.

## Big Number Cards 0-30

Keep playing with your big number cards:

Put them in order—hang on the washing line

Find the missing numbers—*check out my photo on page 4*. Blog me the missing numbers. Now try your own at home.

Jump on the numbers—lay them on the ground and jump around.

**Draw pictures (use your white board) to solve these problems. Helpful tips (and a laugh at Miss Dale's drawings) on page 2.**

Carlay had 6 sweets and Claudia had 7 sweets. How many sweets altogether?

Daniel had 12 cakes. He gave 3 to Miller. How many cakes does Daniel have left?

Claudia had 4 cats. She gave each cat 3 fish to eat. How many fish altogether?

5 monkeys. 20 bananas. How many bananas does each monkey get?

15 rabbits (get drawing and stop whinging!). 30 carrots. How many carrots does each rabbit get?

Along comes the bus with 10 people on board. 4 get off. 8 get on. How many people on the bus now?

Making up your own? Just keep your numbers between 0-30.

## Fill in the Missing Numbers

What number comes before 9?  
.....

What number comes before 14?  
.....

What number comes before 19?  
.....

What number comes after 7?  
.....

What number comes after 11?  
.....

What number comes after 16?  
.....

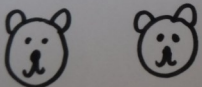

## Maths Homework Options and Sumdog

A little everyday to help mental maths skills and stop you getting a rusty brain!!

# Drawing pictures to solve word problems.

1

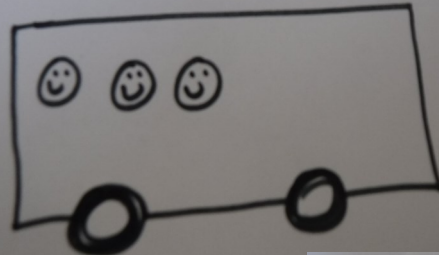

5 bears. 15 fish.  
How many fish does each bear get?

Draw the bears

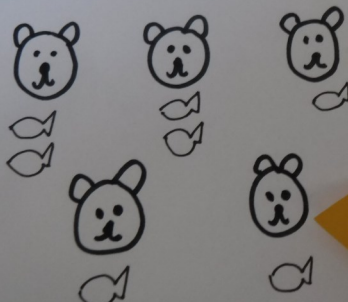

1

Along comes a bus with 3 people on board...

2

each bear get:

Then start giving out the fish.

One to each bear until you reach 15.

2

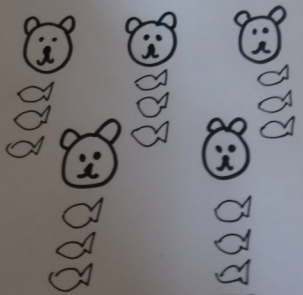

Along comes a bus with 3 people on board...

6 people get on.

3

5 bears. 15 fish.  
How many fish does each bear get?

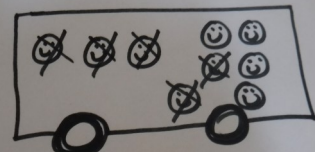

3

Each bear gets 3 fish.

Finish with a sentence.

3

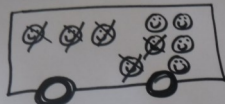

Along comes a bus with 3 people on board...

6 people get on.  
5 people get off.

How many people left on the bus?

4

6 people get on.  
5 people get off.

How many people left on the bus?

4 people left on the bus.

Finish with a sentence.
