

Sheuchan Nursery – Early Learning Centre Improvement Plan Priorities for 2026 - 2027

Raising Attainment & Achievement

Early Maths Skills

We will help children develop confidence with counting, recognising numbers and solving problems through fun, play-based learning.

Learning Through Play

We will provide exciting opportunities for children to explore maths using practical resources, games and real-life experiences.

Mathematical Thinking

We will encourage children to talk about their ideas, explain their thinking and use mathematical language during everyday activities.

Wellbeing and Children's Rights

Pupil Voice

We will encourage children to share their ideas, make choices and help shape their learning through play.

Learning Skills

We will help children develop resilience, independence and confidence as they learn through play and new experiences.

Children's Rights

We will help every child feel safe, included and respected and share with our families how we promote children's rights.
