8th June 2020

Dear Parents

School Return

As previously advised, the staff are now preparing for the Restart phase of the government recovery plan. On Thursday 4th, a property review was conducted by a team from the Council, consisting of Union representatives, H&S Officers, Cleaning Supervisor and Clerk of Works, to determine the school capacity and health & safety measures for moving forwards. However, what is already clear, is that our school model will not involve all the children attending school full-time as we do not have the additional learning spaces or staff required for this. Our children will, from August, be at school part of the week and learning from home for the other part. I shall advise you of arrangements as soon as I can. I am trying my best to get the largest number of children in for the maximum time.

As advice is everchanging, so to are my plans; I shall write to you as soon as I have more definite information.

Yours sincerely

A Cochrane

Head Teacher
