Study Support

Study Support is designed to HELP pupils to consolidate on work undertaken in class.

It allows pupils and staff the opportunity to meet in smaller groups and go over issues which may be causing the pupil some concern.

Assistance with homework can be given.

Study Support is aimed at helping pupils to make the most of their chances in any given subject.

Staff in this school offer Study Support on a voluntary basis, it is therefore important that pupils speak to them in advance about attending any of these classes.

It is the responsibility of the pupil and their parents/carers to ensure that safe transport home from study support is organised.
