The time machine

Once in a time machine a little girl got stuck
with her dad in the time machine was so big
and full of robot bats and there was
a big red bunting* that said do not
touch but then the girl fell and hid
the bunting and the time machine exploded
on the planet called Mars and
then there was a big bang and look
up and said what was that,
then saw a rocket and then ask
them help help them out of the
broken time machine. The astronauts helped
the girl and her dad out of the
time machine and they all got in
the rocket and flew back to
earth the next day the girl went
to school and told her teacher

all about yesterday ^{Cody} but her teacher
did not believe* the girl called
Bell the teacher did not believe*
Bell because she thought that
none of her kids in her class
had been in a time machine one
of her classmates called Leo and
Leo said that he had been on
a time machine but Bell did not
believe* him and the teacher believe*
Leo.
