In the Space Rocket

3.20 chapters

I let the story begin one day in the space rocket it was about to take off, 5-4-3-2-1-0 list off, Now we are heading to the moon, when mission control said there was not even a bus budget to moon and back? I what oh no 500 how long will i be up here about 23 years but what did you say 23 years oh no mission control is there a faster way? nope how is that? not a faster way what about the escape port, oh yeah! how do i work it? has switches at the top of the pod done its not moving so now what hover board down, a what hover board why that its faster, im not going on a hover board ok ill burn on the space pod then why did you burn it off? I wanted you to R like a hover board.

Chapter 2

Oh while I was the sun i was going classed and classed - hotter and hotter Bill i was burning like a crisp then it got gold and gold!
oh no im at neptune mission control!

what what is it Logan are you there
.....!

Its too cold mission control! oh no are you ok! nope is there heating in this space pod! let me see yes sound it! ok Thx

Chapter 3

Its Nice and Coasty Now Now its cold
again! oh no your engine NOT
got no fuel. call the Rocket good
It NOT working now What you have
your Jetpack do you no Sadly
what you told me NOT to bring it
it. NO6 got of you do leg power
ok leg power to get your Soul back.
! good plan ok So how long will that
take 5 minutes that not that bad i ment 5 mins
to one hour what the ~~what~~ long the come on
Mark. What! all you ok! No Jess
ok. I need to you to see is he that
oss the space pod!

Last Chapter 4

He did turn it off! turn it on please
! ok done ok keep pecking as the control
person..... He going to find me..... oh
no has He found you yet --- maybe
i am the control person! what have
you done to mark tell me now Nerefe
