

A constellation is a group of stars. They are often named after the shape they make.

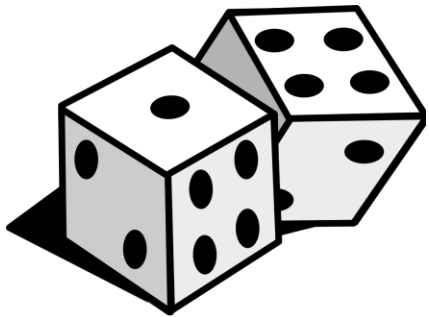

Make a Star Constellation!

Use the instructions below to make your own stars.

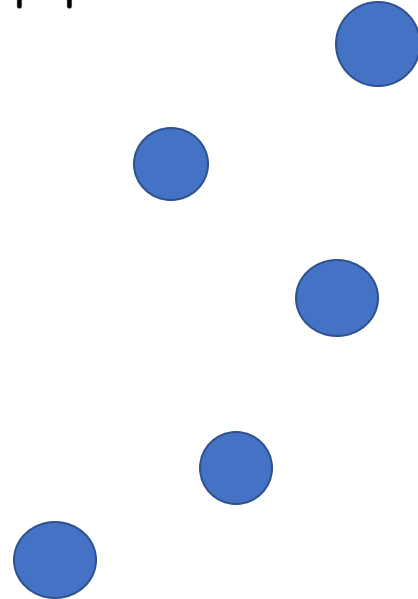

If you don't have 2 dice at home, try the 'Free Dice App'.

1. Roll two dice and add the dots together.

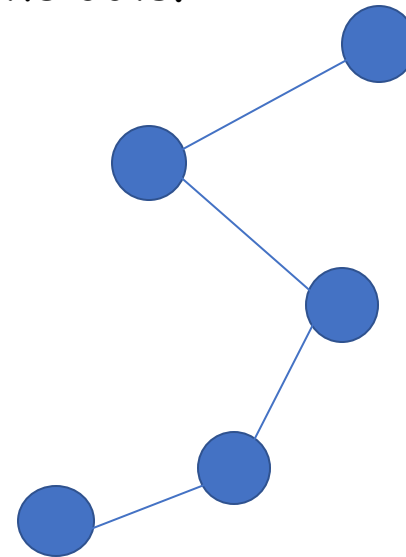

$$1 + 4 = 5$$

2. Draw that amount of dots spread out on the paper.

3. Use a ruler (or the side of your whiteboard) to draw lines between the dots.

4. Name your star!

Try to name your star after the shape it makes.

How many constellations can you make?
