Times Tables

- Pick a times table that you find challenging.
- Write it out then say the other 3 calculations that you get free. e.g. if I know $1 \times 6 = 6$, then I can get $6 \times 1 = 6$, $6 \div 1 = 6$, $6 \div 6 = 1$

If you chose to practise the 7 times table the first three would look like this:

$7 \times 1 = 7$	$7 \times 2 = 14$	$7 \times 3 = 21$
$1 \times 7 = 7$	$2 \times 7 = 14$	$3 \times 7 = 21$
$7 \div 7 = 1$	$14 \div 7 = 2$	$21 \div 7 = 3$
$7 \div 1 = 7$	$14 \div 2 = 7$	$21 \div 3 = 7$

*****Glow and Microsoft Teams*** - Super Important!!!!!!**

Could I also ask everyone to see if they can log into Glow and add the Microsoft Teams tile to their Launchpad this week? Miss McCall has made an excellent video to demonstrate how to do this. [Click here](#) to see it. Also, [click here](#) for a written guide. It is my intention to try to check in with the class via Teams on the week beginning the 18th. I'll be in touch with more info nearer the time. Your parent/s should have received an email with your logins. If you are having any problems, then please email me this week at p6bcdps@gmail.com.
