

2D to 3D Challenge

Use sticks to learn about shapes, dimensions and reflection

9-12

Shape and Space

1. Cube

- Make this 2D shape using sticks (you can use sticks of any length and overlap them if you need.)

- Choose one side and construct a reflection of the first shape
- Can you make a 3D version of the original shape?

2. Pyramid

- Make this 2D shape using sticks

- Use chalk to write the names of all the shapes you can see
- Can you make a 3D version of the original shape?
