

Please feel free to email with any questions and pictures of your learning to p34cdps@gmail.com

[*Teams Meet – Click here to find information about this week’s Teams Meet ☺*](#)

Before beginning this week’s learning grid, please click the link below:

[The Castle Douglas Great Scottish Bake Off](#)

Maths – Problem Solving

[Give this bake-off themed ratio problem a go.](#)

This activity includes a reasoning question to encourage deeper thinking. This means you have to explain how you got your answer.

Maths – Money

Can you set up your own role play bakery?

You could create a menu for your bakery and a price list.

Can you take turns to visit the bakery and purchase different items?

Remember to calculate the total cost of the items, give the shopkeeper enough money and calculate change.

Maths – Weight and Measurement

Weighing and measuring are a very important part of baking. Accurate measurements help to ensure that your bake turns out how it should.

[Click here for some weight and measurement videos.](#)

[Click here to find lots of weight and measurement activities.](#) Pick a few to have a go at these weighing and measuring activities.

Maths – Number

Explore some of these challenge activities.

[Bake-off addition and subtractions cards](#)
[Bake-off multiplication and division cards](#)

Use addition, subtraction, multiplication and division to solve problems in the context of baking.

Literacy - Reading

[Click here to find this week's reading activity.](#)

Literacy - Spelling

[Click here for this week's sounds and spelling activities.](#)

Click on the 'Spelling' option on Sumdog and have a go at your favourite games.

Literacy - Writing

All about me writing

Imagine that you are a bake-off contestant. You will need to introduce yourself to the competition. Find out more about this year's [junior bake-off stars](#) before writing about yourself. You might choose to write about your favourite thing to bake, the person who inspires you or a fun fact.

Recipe writing

When you have decided what you would like to create, you can begin to prepare your recipe. Remember to click above for all of the information you will need to get started.

Literacy - Story

[Click here to listen to the story 'The Great Dragon Bake Off'.](#)

[Click here to find some activities based on the book.](#)

Pick one or two to have a go at.

IDL – Bake Off

It is important to store, prepare and cook food safely and hygienically. [Click here](#) and choose a hygiene and safety activity to complete.

Activity 1

Different foods need to be stored differently.

Activity 2

There are hygiene and safety rules which need to be followed before, during and after cooking.

Other suggested hygiene and safety activities can be found [here](#).

IDL – Bake Off

Watch the 'What is the Eat Well Guide?' [video](#) then explore the divided plate sorting [PowerPoint](#).

Divided plate sorting activity

Cut out the different foods on the healthy plate template and sort them according to the food group you think it belongs in. The eating healthy plate is a great way to understand nutrition and what foods should be included on our plates to help us stay fit and healthy.

Plan a healthy meal

Using your knowledge of the Eat Well Guide, plan a healthy, balanced meal that includes all 5 food groups. Use the checklist to ensure you have included everything you need.

IDL – Bake Off

Baking has many connections to STEM. It allows you to put real-life concepts and STEM subjects into action. Yes, maths and science are whisked right into the fun without you even realising. Plus, getting to eat your work never hurts either!

Share a photograph of something you have baked this week and reflect on all of the [skills](#) you have developed.

Egg drop investigation

Eggs play an important role in baking, from cakes and cookies to meringues and pastry. They create structure and stability within a batter, they help thicken custard, they add moisture to cakes and they can even act as glue or glaze.

This messy yet fun egg drop experiment is ideal for developing scientific language, investigating forces and discussing materials and their properties. Click [here](#) for instructions, a prompt card and a recording sheet for you to plan and carry out this investigation.

IDL – Bake Off

Food quizzes

Have a go at some of the tastiest, most delicious and food-tastic [quizzes](#) from all over CBBC.

Junior Bake-Off

Watch an episode of the Junior Bake-Off to get some tips and ideas. Log in details [here](#).

Food photography

Watch this food photography top tips video for some really helpful pointers when taking creative food photos. Consider neutral backgrounds, angles, light, story and most importantly creativity! Have fun and remember to share your best food photographs.

Design your own cake

Can you design your own cake? You could pick a theme to base your design on such as your favourite book or character. Can you label your design?
