

P5A Times Table Homework

Please use the times table guidance to practise the relevant table. The times table chart that was sent home can be used to help (x0 should be added in at the start e.g. $5 \times 0 = 0$). Please note that 'Times Table Championships' will be held on specific days. We are starting off as a whole class with the 2x table. I am aware that many learners will be confident with this but I am looking for quick recall of facts and confidence when reciting mentally. 😊

Group	Table to be learned or revised	Times Table Championship days
Squares 	9x	Thursday 3 rd June
Triangles 	5x	Thursday 3 rd June
Stars 	5x	Thursday 3 rd June
