

Welcome to P5B

Please find below some activities for you to complete over the next two weeks. Only do as much as you can, there is no expectation to complete all four. Please email over your completed tasks or questions to P45CDPS@gmail.com. I look forward to hearing from you 😊 Mrs Findlay.

Message in a bottle

Write me a letter to tell me all about you. Try to include lots of information about yourself. This could include:

- your hobbies and interests
- the things you are good at
- the things you would like to get better at or that you find tricky
- the things that you are excited or worried about going into P5

Click here to use this [template](#) or create your own 😊. I cannot wait to read your letters.

Carrier Bag of Concerns

Read through this [story](#) all about a girl moving up to a new class and what she is worried about.

Imagine your very own carrier bag of concerns.

Email any concerns, questions or worries that you have about moving up to P5 over to me at P45CDPS@gmail.com.

I'll add them all together and create a question and answer page and upload it to the [transition page](#) next week. Hopefully this will help relieve any worries or anxieties you may have. I'll not put any names on the questions. You may find that you aren't the only one to be feeling the way you are.

Self Portraits

Create your own self portrait. Use any materials you like - be as creative as you can. Watch this [video](#) for some portrait drawing tips. Email your designs over. Here are some examples:

True/False

I normally play this game in class during the move up day in school. Let's play online instead. This is a good 'getting to know you' activity. Email me 3 statements about yourself. Two have to be true and one has to be false. Then I have to guess which one is false.

I'll go first. Let me know which one you don't think is true.

1. I have been a teacher for 11 years.
2. I have ten goldfish.
3. My favourite food is haggis.
