

Nursery to Primary 1 - Transition Activities Week 4

Here are some activities you may want to try this week!

As you have now received information about your child's class teacher, we'd love for you to send your photos to your class teacher -

Miss Conacher (p1acdps@gmail.com) OR Mrs Baird (p1bcdps@gmail.com)

Language

Your teacher has told you some information about themselves, (see new class page) so we'd love to know more about you! Record a video, take photos or draw a picture of some of your favourite things and send it to your class teacher.

Fine/Gross Motor Skills

After enjoying [The Very Hungry Caterpillar](#) story, try making a caterpillar using playdough. Get those fingers moving and make your caterpillar look as interesting as possible! Here's a [playdough recipe](#) if you need one.

Maths

Help us create a Teddy Bear Hunt! Put one of your teddy bears in the window of your house and attach your name if allowed. Go for a walk around the town and count how many you can find! Perhaps you'll spot some from the friends you'll have in your class!

Independent Skills

Try using a knife and fork to cut up your own food this week - this is a very important independent skill!
