

### Numeracy - Money

Last term our target was to learn all coins to £2. Can you find each of the following coins and tell an adult what each one is? 1p 2p 5p 10p 20p 50p £1 £2  
Can you lay them out in order from smallest to largest value? How many 1p's are in 5p? How many 5p's are in 10p? How can you make 3p? Can you make a rubbing or draw round each coin and label it?  
Watch this YouTube clip - [UK coins explained](#)  
Do you have a piggy bank? Can you count how much money you have with an adult?

### Literacy - Reading

Word Wall 1 words (on pink card but also below)

**I the to he me is his put was want saw no**

Please practice these words daily. Write out each word on a piece of paper and muddle them up so your child can't memorise the order on the card! If you get them all correct - great! If not, do not worry, keep practicing and perhaps concentrate on 2 words you do know with 2 you are unsure of. You could hide them round the room to find and say or make up your own game.

### Storytime

Click on the link to listen to the story:-

[Squirrel's New Year's Resolution](#)

Do you think you could help someone every day? What could you do? Share your ideas.

### Numeracy - Addition

We have been working on our addition skills and addition stories to 5.

**Task 1** - Check Dojo every day this week for Mrs Fitzsimmons' workout to keep your skills ticking over!

**Task 2** - Read the instructions for this game and make some addition sums of your own. Press on the 'add hand' to see the number sentence and answer.

### Quiz Time!!

Thank you very much to Isla and her sister Erin for making us a fun Disney quiz to do!

I will upload the quiz to the blog and you will see the link below this grid but I will also take a photo and post on Dojo as this may be easier to keep looking at.

### Games and Fun!

I am sure you got lots of super things from Santa! Play with a new game or toy you got for Christmas. This could be on your own or with a partner or in a team. Do you have a new model to build or some new art materials to try out? Remember to share and tidy away your toys when you are finished playing.

### Numeracy

Let's play a game! Here is a game we have played in class that you can teach an adult or siblings to play. It's 'Build a Snowman'. You will need paper, pencil and a dice. I will post the instructions with pictures on our **Dojo** as that will be easier to access and see. 😊

### Literacy - Writing

Let's write a thank you letter to Santa! Example....

*Dear Santa*

*Thank you for my lego, chocolates and doll. I liked my computer game the best. I hope you liked the pie I left. Enjoy a rest. See you next year.*

*from, Mrs Fitzsimmons*

Ask an adult to draw some lines on a piece of paper for you. You could ask an adult to write your letter and leave a line for you to copy underneath like we do in school. Next you could draw some pictures of your presents. You could send me a photo of your work in an e-mail or on Dojo in 'Portfolio' as I would love to see it.

### Outdoor Learning

Go for a walk and choose a different activity each time. Can you find something beginning with each letter of the alphabet? (you could do this over a few days!) Or....choose a colour and see how many different things you can find that colour. Play against an adult/sibling who must choose a different colour. Or ...look out for different shapes. Can you find something that is a circle, square, rectangle or triangle. What other shapes can you see? Or... look for letters and words all around e.g. on signs, houses, shops. Do any start with the same letter as your name?
