

Literacy-Writing

We are going to learn about some techniques we can use to improve descriptions in our writing.

Watch this Sway presentation about adjectives and alliteration. Make sure to listen to the voice clips.
<https://sway.office.com/q3Ekr6MeAvw8akx9?ref=Link>

Adjectives

An adjective is a describing word.
 Complete the adjective worksheet on Teams in the literacy files.
 You can use this [Adjective word mat](#) to help you think of some adjectives.

Alliteration

We are going to be learning about alliteration.
 Try this [Alphabet Alliteration](#) worksheet to demonstrate your knowledge of adjectives and alliteration.
 Submit your alliteration descriptions to Teams (see Sway presentation for instructions).

Teams > Assignments > Alliteration Descriptions

Poetry

This week we are going to learn about another type of poem called a Limerick.

Watch this video about [limericks](#)

Have a look at this website for more information on [how to write a limerick](#)

Create your own limerick- can you include adjectives and alliteration in it?

You can use the template at the end of the grid to help you with how to set out your limerick.

Upload your limerick into the assignments section on Teams.

Teams > Assignments > Limerick

Literacy-Spelling

Practice new spelling words for the week.

These will be on Sumdog for you to practice under a challenge called 'Week 4 Spelling'.
 From Thursday to Sunday a spelling test will be available for you to complete on Sumdog.

Make sure to do the Spelling challenge before doing your spelling test!

Write 5 sentences using your spelling words.
 Your spelling textbook questions will also be in the relevant folder in Teams.

Teams Meeting

We will have another Teams meeting this week on Tuesday at 1:30pm. I will schedule this on the Teams calendar so that you can access the meeting from there, we are hoping this will resolve the issue from last week that meant some of you couldn't join.

We would like you to come prepared with a joke to tell us this week!

Literacy- Reading

Log in to Oxford Owl through the Oxford Owl tab on Glow. I will put a post on the literacy channel on Teams about how to access the books.

If you are unsure of which reading group you are in I will also put some information on the Teams literacy channel.

Simon and Donaldson groups there are some activities above your book to complete on Oxford Owl. Dahl and Walliams groups go to the reading folder on Teams and try 2 of the questions from the file called 'Reading Comprehension Tasks'.

SIMON group: Hide and Cheat
 DONALDSON group: East of the Sun, West of the Moon
 DAHL group: Clever Monkey
 WALLIAMS group: The Personality Potion

Send me a video of you reading some of your book aloud- I would love to hear it! If you finish reading your book then why not choose a different book to read on Oxford Owl-let me know if you read any other books!

Continue reading any books you have at home and let me know what you are reading!

Phonics - SIMON Group

[Click this link](#) to watch Mrs McLean's video lesson on the phonics sounds ie, i_y, igh and i_e. Practice reading the words and sentences along with the video. If you can read the words and sentences well, you could practice spelling the words too.

Maths

Money

This week we are going to continue practicing adding money and giving change.

I would like you to create your own shop at home!
It can be a toy shop, food shop, book shop- you decide!

Think about what price the items in your shop will be, you can use these [price tags](#) or create your own price tags.

Make your prices realistic- a tin of beans isn't going to be £20 and a video game isn't going to be 20p! Look up what price items are to help you get an idea of what to charge in your shop!

Have someone visit your shop, calculate how much they have spent and how much change they will get.

You could print off these [coins and notes](#) if you would like to use these in your shop.

Send me pictures on Dojo of the shop you create!

Complete the **Money Problems** worksheet in the Teams Maths files. There are 2 worksheets to try-complete the level you feel is best for you, 1 or 2!

You can use these [Online coins](#) to help you with the questions.

Try some of these top marks [Money Games](#)

Maths

Multiply/divide

Continue to practice your times tables.

Squares

Multiplying 1 digit by 2 digits

Watch [this video](#) from Mrs Anderson showing some strategies for multiplying by a 2 digit number.

Watch [this video](#) about the grid method.

You can practice this with [this game](#)

Try this [worksheet](#) using the 'grid' method.

Triangles

Learning square numbers.

Watch [this video](#) about square numbers.

You can practice with [this game](#)

Try the 'Square numbers worksheet' in Teams.

Both groups then go to the Maths Files in Teams to find some multiplication questions to try using the new strategies you have learned. They will be called 'Squares Multiplication Questions' and 'Triangles Multiplication Questions'

Triangle Maths Group

Addition and Subtraction Revision

In this task you will learn how to mentally work out questions such as $96 + 7$ or $84 - 8$ without using your fingers to count on or back.

Watch these videos of Mrs McLean demonstrating mental strategies for addition and subtraction. After watching, try to answer the questions in the description box mentally in your head. If this is tricky, try jotting down your working as shown in the videos.

[Add by partitioning the addend](#)

[Subtract by partitioning the subtrahend](#)

Topic Maths - Angles

In this task you will learn the names of different angles and begin to identify them yourself.

Watch the lesson on Education City called 'Angling for Angles' and complete the game and worksheet, both called 'Wrecked Angles'.

Next, click this [video link](#) about right angles, acute angles and obtuse angles. After watching, print or make your own monster 'angle tester' to help you test different angles in your house.

Try the activities shown in the video such as writing your name in big capitals & colour code the right, acute and obtuse angles or make the different angles with your body and send us a photo!

Health and Wellbeing - Safety

The purpose of this lesson is to help you keep safe by spotting hazards and preventing accidents in the home.

In this [Hazards in the Home Lesson](#) you will try to spot hazards in different rooms the house.

You will try to come up with ideas to 'mitigate' the hazards and then carry out your very own risk assessment in rooms in your own home.

Please watch the lesson, complete the activities, including the quiz and share your risk assessments on your Dojo profile!

Art

Art lesson from Mrs Harris.

[Using Shapes to Draw Negative Space and Shape](#)

STEM

Try at least one of the Dumfries and Galloway STEM challenges for this week.

These will be in the files section on the Teams general page.

P.E

[Mrs Gray indoor PE](#)

Mrs Gray has made another great PE at home video for you to try!
I am sure she would love to hear from you if you have given it a go!

gw08grayjan@ea.dumgal.sch.uk

Scotland

This week I would like you to research a Scottish animal.

Use [this grid](#) to help you with ideas of what to find out about your animal.

Create a poster about the animal you have decided to research.

Look at this [example poster](#) for ideas of how to layout your poster.

Make sure your poster includes:

- **Title (large writing)**
- **Labelled diagram**
- **Caption (to go with diagram)**
- **3 facts about your animal (in sentences)**

You can either draw your poster on paper or try to do it on the computer using Word.

This [Visit Scotland](#) website has information about Scottish wildlife.

[Foxy facts for children | The Fox Project](#)

[Mammals - British Animals - Woodland Trust](#)

French - Months of the Year

The purpose of this task is to learn the months of the year in French and learn how to have a French conversation about birthdays.

janvier, février, mars, avril, mai, juin, juillet, août, octobre, novembre, décembre

(Notice there are no capitals in French months!)

Revise the Months of the Year with Mr Innes in these fun videos:

[Part 1](#) [Part 2](#) [Part 3](#)

(You may want to focus on one video a day)

Can you practice asking:

"When is your birthday?"

"Quelle est la date de ton anniversaire?"

And replying, for example,

"Mon anniversaire c'est le vingt cinq avril."

My birthday is on the 25th of April.

[Click here to enjoy singing along to our favourite months of the year song!](#)

Music

Our Feis Rois music sessions will be continuing!

This will be on Thursday from 2:20pm - 2:50pm.

Hopefully as many of you can join in as possible, it has been great fun so far!

Go on the Feis Rois Teams page and complete the assignment you have been set for this week.

Kate Picken Music

Enjoy these super music lessons by music teacher Kate Picken:
