

Dalbeattie Primary Nursery

Improvement Plan 2022/2023

Nursery Priority 1

Raising attainment in literacy and numeracy

We will identify gaps within numeracy and literacy attainment and ensure staff have access to training. This will ensure they are knowledgeable in how to support and challenge our learners to progress within numeracy and literacy and to provide rich learning experiences in those areas.

This will be achieved through:

Access to staff training and support in offering pre-TLQ sessions within the nursery.

Access to staff training in developing number knowledge to build staff confidence in identifying gaps in numeracy attainment and how to support the progression of our learners.

Developing the nursery playroom and outdoor area further to ensure there are always opportunities for literacy and numeracy development naturally through play.

Nursery Priority 2

Providing a high quality environment for our 2 year olds.

We will ensure that our nursery environment will now also provide high quality learning experiences for our 2 year olds.

This will be achieved through:

Developing staff knowledge and use of the Realising the Ambition document to reduce barriers to learning within our nursery.

Evaluating our resources to ensure that they are appropriate for 2-3 year olds or ordering resources required to promote inclusion and equity for ages 2-5 years within our nursery.

Nursery Priority 3

Develop the self-evaluation process to consider the more recently published guidance

We will ensure that the self –evaluation process becomes a regular part of nursery life and that it involves all stakeholders to ensure the service is continually improving and providing the best care and learning for our families.

This will be achieved through:

Using the nursery monitoring calendar to ensure self evaluation is taking place throughout the year and includes the use of the main national guidance documents.

Developing staff knowledge and familiarity of how the following guidance links together: The Quality Framework (Care Inspectorate), The National Standard, Realising the Ambition and HGIOELC (How good is our Early Learning and Childcare)

Giving parents and carers regular opportunities to be involved in the evaluation process through '2 stars and a wish' Microsoft forms, our Facebook group and face to face meetings.
