

Engage Weekly Update

DG Schools Connect

DG Schools Connect is a new digital offering to secondary schools in Dumfries and Galloway, providing a more equitable curriculum offer. This online provision will deliver live and interactive learning and teaching, with a focus in year 1 on national qualifications for learners in S5 and S6.

This offer to schools is in addition to the existing online provisions from e-Sgoil, Edinburgh College, and our award winning partners @SouthWest Connects. The DG Schools Connect team were all instrumental in the setting up, development and delivery of @SouthWest Connects and have built upon that experience to deliver this exciting new offer for Dumfries and Galloway schools.

A range of subjects are available in this first year, including:

- National 5 Skills for Work: Financial Services
- Higher Accounting, Computing Science, Geography, Maths and RMPS
- Foundation Apprenticeships in Business Skills, and Creative and Digital Media (Level 6)
- Advanced Higher Biology, Maths and RMPS.

[Visit our website to view the 2025/26 digital prospectus, frequently asked questions, and application form.](#)

Applications are now live - closing date Friday 28th March.
