

## Engage Weekly Update

### Video Enhanced Reflective Practice

Video Enhanced Reflective Practice (VERP) is a method of professional development where practitioners are sensitively supported to reflect on their practice using real life videos. The aim is to give individuals a chance to reflect on their interactions, pay attention to elements that are successful, and use these positives to make changes. VERP is available to all educational establishments in Dumfries and Galloway although requests from early years, learning centres and secondary learning bases will be prioritised. Further information can be found in our [VERP sway](#) or see the professional learning calendar for information sessions.

If you are interested in VERP for your setting next academic session please express your interest using either the QR code below or at <https://forms.office.com/e/ihDGvpkcqA>.
