

BGE Live Lessons with e-Sgoil

BGE Live, delivered through e-Sgoil, brings high-quality, fully interactive live lessons to BGE learners across Scotland.

Each session dives into exciting topics and themes that enhance and build on the great learning and teaching already happening in classrooms.

Lessons take place during the school day and give learners the chance to create, think critically, collaborate and explore alongside industry experts, partner organisations and experienced practitioners. Every session is designed to spark curiosity and boost confidence.

Visit the [BGE Live webpage](#) for more information, and to register your class.
