Thu 9 th Jan	Masterclasses/PE at Eaglesfield Primary
Mon 13 th Jan	P1 Enrolment
Tue 14 th Jan	3.15pm Parent Council Meeting P1 Enrolment 3.30 Active Schools Dance Club

So much maths!

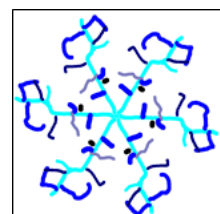

P1/2/3 advent calendar helps us countdown to Christmas, learn about the properties of 2D shapes and work on co-ordinates! (We are also counting down to Christmas with an Advent Wreath, if you haven't seen it yet have a look on the school blog!)

To make the icicles for our Jack Frost frieze we looked at halves and quarters and then rolled them into cones.

In our Product Design topic we have been investigating hexagons so that we can design and make snowflakes. Our decoration plans were drawn by hand but we have also created snowflakes on the computer using 2Simple.

P4-7

As we have been assessing our Space topic knowledge, P4-7 are working to design and create their own space shuttles. The shuttles are being used in their 'Application to Explore Space Video'.

The pupils have also helped to create their own props for the Christmas show, using different tools. They are looking very glam and we cannot wait to use them!

In our spelling lessons, P4-7 are starting to use a range of strategies and resources to help them practice their spelling words. Lego is a favourite!

Still working to develop our skills in using measurement, P4-7 are enjoying the use of hands-on learning – such as two-pan balances.
