

School Improvement Plan 2019-20 for Pupils

Focus: Achievement and progress in learning for all children, particularly in Numeracy.

In school:

- Teachers will research and develop ways to help learners experience numeracy in lots of different ways and places.
- We will review our Numeracy curriculum to make sure that learners are experiencing all aspects and that they make steady progress through it.
- We will work to help everyone become confident in numeracy .
- Teachers will meet every term to review the progress that learners are making, checking that everyone is being successful.
- Teachers will work together in school and with other colleagues to share good practice.

Pupils can help by:

- Trying your best in all learning tasks and activities.
- Take part in class, school and wider community activities.
- Ask for help when needed—"I can't yet..."
- Work towards your own learning targets.
- Build your confidence in numeracy by practicing and playing number games at home as well as in school.

Focus: Engaging and involving Parents and Carers.

In school:

- We will promote our revised Vision, Values and Aims with everyone, making our expectations clear and recognising when we see them in action.
- We will offer more opportunities for Parents and Carers to experience our Vision, Values and Aims in action.
- We will further develop the use of our School Blog and Twitter to share information , promote events and to celebrate achievements.
- There will be more open sessions / drop ins and Family Learning Sessions available to help parents and carers to get involved and understand their child's learning and how to support and encourage their success.
- We will work with the Parent Council to plan events and activities that the Parent Forum can take part in.

Pupils can help by:

- Be responsible for passing on messages and letters to your parents and carers.
- Share what happens at school with your parents and carers by talking, showing or sharing the school blog or asking your adults to follow us on twitter— @LaurieknowePS
- Visit our school blog: blogs.glowscotland.org.uk/dg/laurieknoweprimary
- Encourage your parents and carers to come along to school events

Focus: Health and Wellbeing

In school:

- Our staff will review our current practice and provision for learning and teaching in Health and Wellbeing.
- Teachers will work with colleagues across the cluster to develop a programme of learning for all children.
- We will commit to further professional development for teachers in nurture, inclusion, mindfulness and outdoor learning.
- We will improve and expand opportunities for children to experience outdoor learning.
- We will implement strategies for 'Better Relationships, Better Learning' which will involve all members of our community.
- Learners will be able to share their progress and achievements through SHANARRI indicators.
- The ECO -group will work towards the 'Green Flag' award.
- Staff and pupils will work with the Parent Forum and Community Partners to begin work on improving the playground for our children.

Pupils can help by:

- Remember to use mindfulness techniques when you need to.
- Be inclusive of other children, in class, on the playground and outside of school.
- Share your worries with someone you trust.
- Do your part to look after our school.
- Use SHANARRI to help you to talk about your own wellbeing.
