Dear

Mrs Henderson, Staff + Pupils at Dobbiehall P.S.

We would like to cordially invite you to Greystone Rovers Foundation's Kicking Carbon Environment Fair. This is the first of what we hope is many community events to come, focusing on Dumfries' Carbon Footprint and Carbon Literacy.

In April 2019, The Greystone Rovers Foundation was granted two years of funding by the Scottish Government's Climate Challenge Fund, managed by Keep Scotland Beautiful. This led to the formation of our Kicking Carbon project, which aims to encourage green behaviours in Dumfries and deliver education in Carbon Literacy to our local schools and the wider community.

Which brings us to our community engagement on the 23rd November 2019, at the David Keswick Athletic Centre. We will be opening our doors to the community for a day of learning and interaction with groups, charities and businesses that can help the people of Dumfries and Galloway do their bit to lower their Carbon Footprint and look after the environment. This could be, by getting involved with some of the local groups, or by making small behaviour changes such as eating locally to reduce food miles, getting advice on saving energy at home, or travelling as actively as possible and taking advantage of public transport for longer journeys.

We would be delighted if you could join us anytime between 11am and 3pm to celebrate the work that is being done in the community to care for the environment, learn about your local Climate Challenge Fund Project (the only CCF project in Dumfries and Galloway!) And meet new, like minded people.

If you have any questions please do not hesitate to contact any member of our Kicking Carbon team. We look forward to welcoming you at the Environment fair!

Sincerely,

Joanne Stewart
