This spring sees the start of a humorous and interactive exhibition of kinetic sculptures by talented artistic duo, Johnny White and Amanda Wray. The exhibition, entitled Human Machines, is inspired by the common experiences and

feelings, as well as pivotal moments in life, which affect us all as humans. Using recycled materials and found objects salvaged from tips or sourced from junk shops, Freecycle and eBay, Johnny and Amanda combine sculpture, engineering, metalsmithing and electro-mechanics to make their thought-provoking and humorous sculptures, which appeal to all ages.

Cranky People

Family Workshop

Saturday 29 February 2020
10.30am - 12noon

Using wire and laser cut plywood, Johnny and Amanda will show you how to make your own human machine. Bring along mum dad, granny or grandad – suitable for kids age 8+. Places are **free** but must be pre-booked in advance.

Gallery Talk

1pm Saturday 29 February 2020

Join Johnny and Amanda on the opening Saturday when they will give a talk about the work and their inspiration.

Free, with soft refreshments, but please book a place on 01387 262084 or email arts@dumgal.gov.uk

Teachers!

School group visits to this show are very welcome and there will be some class activities to do.
