The children mentioned how they enjoyed seeing their friends on Teams and sharing pictures of what they were doing. They liked playing Bingo and having Show and Tell. Sometimes they couldn't hear their friends or they weren't heard on Teams and this was frustrating.

They missed school and their friends and liked it better when they could play at school.

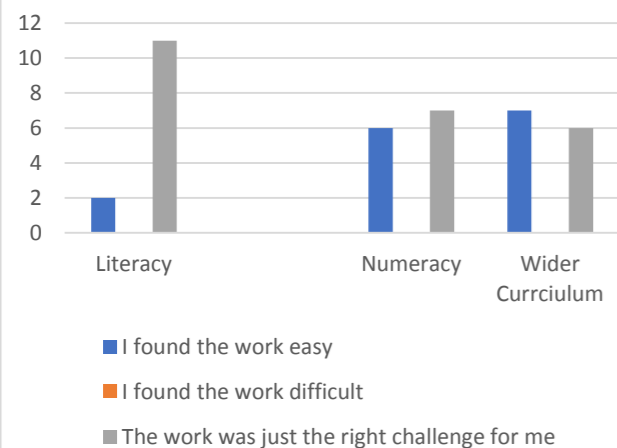

They especially enjoyed using Sumdog when online and some made shops in their house or did gardening or cooking.

I few children mentioned they didn't like home learning and school is better,

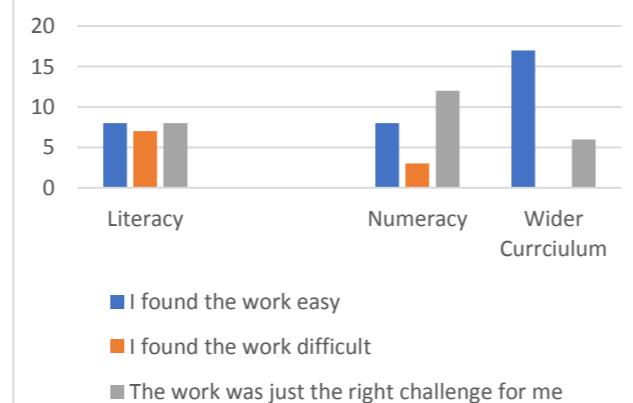

They did though like spending time with their families and going for walks and doing nature stuff

P1-P3 were very excited to share their views and we are so happy that they are all back in school and we get to share our days with them.
