

Term 4 Learning Information for Primary 7

TOPIC 	Our IDL topic this term is The Body, with particular focus on the different bodily systems e.g. respiratory system, circulatory system etc. We will also explore the characteristics offspring inherit when living things reproduce. We will learn how to distinguish between inherited and non-inherited characteristics. Our Health and Wellbeing focus is on developing the skills required to help make a smooth transition to secondary school. We will follow the SPARK Resilience programme to support this.
LITERACY 	Part of our focus this term will be personal report writing to complete My World of Work profiles. These are completed in preparation for transitioning to secondary school. P7 will think about the skills we use in different parts of life and think about how we can build on these skills to stand out from the crowd. In addition to this, we will continue to work in our groups for reading and will focus on the tools required to read and write fluently.
NUMERACY 	In Maths and Numeracy, we will continue to explore and extend our learning in Fractions, Decimals and Percentages. With Miss Farquhar, P7 will consolidate learning in Measure and then move on to Data Analysis. As part of our learning, we are building on our mental recall when using our multiplication facts. We will use these to solve a range of problem-solving calculations.
OTHER INFORMATION 	We have a super busy but super exciting term ahead. Our week's will look like this: Monday - Athletic sessions with Active Schools Tuesday - Lawn bowls sessions Thursday - Aiming for High workshops with Youth Work Friday - Rugby sessions with Wigtownshire Rugby Club coaches Remember to wear a school jumper on PE days and have a plain top for PE, no football tops. An extra jumper can be brought for the PE lesson.
