Dear parent /guardian

PARENTAL SATISFACTION SURVEY

We know how important it is that parents/carers are involved in the life and work of our schools. Parents tell us that they particularly care about the relationship with the class teacher, the ethos of the school, the quality of the leadership and management, their child's learning and experience at school, pupil behaviour and welfare including the handling of issues such as bullying and harassment.

We want to continue to improve our services to families and give our children the best life chances -we want to know what you and your child/children think of school through a survey. You can access the survey on the council website between the 20th February and 31st March under the 'Get in touch with us' area or from this link.

<https://www.surveymonkey.com/r/KQMLMBW>

The survey is also available as a paper copy from your child's school office and once completed can be returned there also as these will be collated and forwarded on to us.

Yours sincerely

Dr Gillian Brydson
Head of Education
