Created in 2016, our goal is for every young person in Scotland to have access to innovative and digitally creative activities regardless of their gender, background, or where they live. The aims of Digital Xtra Fund are to:

**Inspire**

Inspire the next generation to understand and create with technology, not simply consume it.

**Enable**

Enable exciting digital skills activities for young people across Scotland through our grant awards programme.

**Engage**

Engage our Industry Partners in supported activities, giving them opportunity to connect with young people.
