

Loanhead Primary School

P3B Class Newsletter

Mrs Roy

Term 3 – January 2025

Literacy

We have been learning to

- Find it, Prove it, Talk (using a book to find out information)
- Write a report.

Next we will be learning to

- Write and recite Scottish poetry
- Use connectives (joining words) in our writing.

Numeracy

We have been learning to

- Add and subtract using various strategies
- Understand directions, position and movement.

Next we will be learning to

- Multiply and divide
- Use graphs to gather and display information.

Learning across the Curriculum

We have been learning to

- Scottish dance and play basketball
- Use personalisation and choice in our artwork.

Next we will be learning to

- Research our topic using Google
- Understand historical Scotland.

As you can see from this wonderful work, children learned so much during our topic.

They learned about:

- aliens and created their own spaceships
- worked in groups to research a planet and present it to the class
- Make spacesuits following an input on famous astronauts
- Created rocket ships using chalk and crayons.

P3B are continuing to develop, grow and achieve...well done for all their hard work! Last term the children learned about Space. They also learned traditional dances and showcased these at our Christmas party. Children will continue to receive homework on a Monday, which should be returned on a Thursday. I encourage reading at home which will support all curricular development.
